Authorized Body No. 204

Authorization granted by Decision 5/2017 of 31 January 2017
issued by the Czech Office for Standards, Metrology and Testing
Branch 0500 – Předměřice nad Labem

PRODUCT CERTIFICATE

No 204/C5a/2025/050-025283

In accordance with the provisions of Art. 5a of Government Regulation 163/2002 Coll., laying down technical requirements for selected construction products, as amended by Government Regulation 312/2005 Coll., Government Regulation 215/2016 Coll. And Government Regulation 119/2024 Coll., the Authorised Body hereby confirms that for the following construction product

Product name

Manhole tops and gully tops

Type/version: Load class A15 to F900 (see Annex)

Manufacturer:

KASI spol. s r. o.

ID No.: 47470011

Address: Chrudimská 1602, 535 01 Přelouč

Manufacturing facility: KASI spol. s r.o. - plant in Přelouč

KASI spol. s r.o. - foundry in Nový Bydžov

KASI FOUNDRY a.s. - foundry in Chvaletice

Address: plant Přelouč, Chrudimská 1602, 535 01 Přelouč, Czech Republic

foundry Nový Bydžov, Průmyslová 202, 504 01 Nový Bydžov, Czech Republic

foundry Chvaletice, Průmyslová 490, 553 12 Chvaletice, Czech Republic

Order No.: Z050990121

the Authorized Body reviewed the background materials submitted by the manufacturer, conducted the initial product type testing on a sample provided, performed the initial inspection at the site of production and assessed the factory production control, and came to the conclusion that

- This product fulfils the requirements derived from related essential requirements given in the above mentioned Government Decree and detailed in the standards and technical regulations:
EN 124-1:2015 - Gully tops and manhole tops for vehicular and pedestrian areas - Part 1: Definitions, classification, general principles of design, performance requirements and test methods
EN 124-2:2015 - Gully tops and manhole tops for vehicular and pedestrian areas - Part 2: Gully tops and manhole tops made of cast iron.
- The factory production control complies with the corresponding technical documentation and ensures that the marketed products fulfil the requirements specified in the standard mentioned above and correspond with the technical documentation pursuant to Art. 4 (3) of the aforementioned Government Regulation.

An integral part of this certificate is a report on the results of certification no. 050-003128 dated 30 April 1999 and a surveillance reports No. 050-024146 dated October 30, 2022, No. 050-024549 dated November 10, 2023, 050-024906 dated August 30, 2024 and 050-025282 dated August 29, 2025 containing conclusions of the assessment, basic description, verification and test results.

The present Certificate was first issued on August 29, 2025 and remains valid for a period in which the requirements specified by the specified standard to which reference is made or the production conditions at the place of production or the factory production control remain substantially unchanged or unless the Authorised Body changes or cancels this certificate.

At least every 12 months, the Authorised Body shall check the due functioning of the factory production control at the manufacturer and assess whether the product characteristics comply with the standards determined pursuant to the provisions of Art. 5a(2) of the aforementioned Government Regulation. The Authorised Body shall evaluate the surveillance and issue a report for the manufacturer.

Annex 1 (4 pages) is an integral part of the Certificate.

Person responsible for the accuracy of this Certificate:

Ing. Vladimír Levinský

Deputy manager of the Authorised Body 204
